Think

All the sides of a rhombus are equal. Is it a regular polygon?

The formulae to find the area and the perimeter of some plane figures learnt in the earlier class are tabulated below and it will be helpful to find the area and the perimeter of combined figures.

S.No	Shape	Name	Area (*sq.units*)	Perimeter (*units*)
1		Triangle	$\frac{1}{2}\times b\times h$	Sum of all three sides
2		Equilateral triangle	$\frac{\sqrt{3}}{4}a^2\left(h=\frac{\sqrt{3}}{2}a\right)$	$3a$
3		Quadrilateral	$\frac{1}{2}\times d\times(h_1+h_2)$	Sum of all the four sides
4		Parallelogram	$b\times h$	$2(a+b)$
5		Rectangle	$l\times b$	$2(l+b)$
6		Trapezium	$\frac{1}{2}\times h\times(a+b)$	Sum of all the four sides
7		Rhombus	$\frac{1}{2}\times d_1\times d_2$	4a
8		Square	a^2	4a
