Objective Type Questions

9. Data is a collection of _____

(A) numbers (B) words (C) measurements (D) all the three

10. The number of times an observation occurs in the given data is called _____

(A) tally marks (B) data (C) frequency (D) none of these

11. The difference between the largest value and the smallest value of the given data is _____

(A) range (B) frequency (C) variable (D) none of these

12. The data that can take values between a certain range is called_____

(A) ungrouped (B) grouped (C) frequency (D) none of these

13. Inclusive series is a _____series.

(A) continuous (B) discontinuous (C) both (D) none of these

14. In a class interval the upper limit of one class is the lower limit of the other class. This is _____series.

(A) Inclusive (B) exclusive (C) ungrouped (D) none of these

15. The graphical representation of ungrouped data is _____

(A) histogram (B) frequency polygon (C)pie chart (D) all the three

16. Histogram is a graph of a _____ frequency distribution.

(A) continuous (B) discontinuous (C) discrete (D) none of these

17. A _____ is a line graph for the graphical representation of the continuous frequency distribution.

(A) frequency polygon (B) histogram (C) pie chart (D) bar graph

18. The graphical representation of grouped data is _____

(A) bar graph (B) pictograph (C) pie chart (D) histogram

Exercise 6.3

Miscellaneous Practice Problems

1. Draw a pie chart for the given table.

Continent	Asia	Africa	North America	South America	Europe	Australia	Antarctica
Area	30 %	20 %	16 %	12 %	7 %	6 %	9 %

2. The data on modes of transport used by the students to come to school are given below. Draw a pie chart for the data.

Mode of transport	Bus	Cycle	Walking	Scooter	Car
Percentage of students	40 %	30 %	15 %	10 %	5 %
